Skills

Programming: CSS3/SASS, JavaScript (ES6/ES7/ES8), React/Redux, React-Native, Node.js, MySQL, git
Other Skills: Strategic Thinking, Remote Collaboration, Strong Communication, Time Management, Detail Oriented

Experience

BudK
Moultrie, GA
FULLSTACK DEVELOPER — Mar 2019 – present
- Develop and maintain multiple eCommerce websites using technologies such as React, C#/.NET, and MySQL.
- Refactored and implemented multiple web components and web pages that increased click rates to products by over 50%.
- Created an internal web application that managed the in house data for inventory tracking using React and Node.js.

Freelance
Self
SOFTWARE DEVELOPER — 2017 – 2019
- Designed, developed, tested, and deployed responsive websites for multiple clients ranging from static sites to full stack applications.
- Some key features implemented were the ability to schedule appointments, send out newsletters and eCommerce features.
- Responsible for quality assurance of finished websites, including validating web forms and links.

AIS Healthcare
Valdosta, GA
SOFTWARE DEVELOPER & DEVOPS — Feb 2017 – Feb 2019
- Re-engineered systems setup by establishing automated server generation routines, optimizing server performance, establishing system monitoring and maintaining security protocols.
- Developed and implemented a new user feedback application using React.
- Collaborated remotely with peers on the improvement of software performance and performed error analysis.

NijemTech
Valdosta, GA
SOFTWARE DEVELOPER — July 2013 – Dec 2016
- Created a performance monitoring web app using React to display statistics of IT infrastructures.
- Plan and install upgrades of database management system software to enhance database performance.
- Worked on multiple software projects simultaneously and participated in the whole software development process from design to implementation and delivery.

Personal Projects

PickAPalette
React/Redux, Styled Components
Developed a web app which allows you to create and save color palettes for web projects. One of the challenges faced was making the font color to be dynamic so that when changing the hue of a color swatch the font will still be legible.
github.com/jsquardo/PickAPalette

Outdoorsy eCommerce
React/Redux, Firebase
EcomWeb is a fully functional E-commerce website I created for a fictional company. I used React/Redux with Firebase and integrated the Stripe payment processing API to create a fully functioning checkout system.
